## Massage school to expand on Commercial Street

Larger property to let center increase reach.

*News-Leader staff*

**Professional Massage Training Center Inc.**, a massage therapy school, recently purchased a building at 235 E. Commercial St. to house its expanding operations, according to a news release from the center.

The recently acquired property will provide **PMTC** with 4,700 square feet of additional space and will accommodate new admissions offices, spa training facilities and new classrooms.

"We are excited about the growth of our programs and the level of services we are able to offer our students," **Juliet Mee, director of Professional Massage Training Center**, said in a written release.

"We love being in the heart of Springfield on Commercial Street and are thrilled to renovate the new building," Mee said. The extra space will enable us to better reach and serve individuals interested in PMTC's professional massage therapy programs and provide our students with more classrooms and facilities for hands-on training and massage therapy experience."

**Professional Massage Training Center** currently occupies the building of about 10,000 square feet at 229 E. Commercial St.

The new building is directly east of **PMTC's** current location and previously housed Davis Appliance Store.

**Professional Massage Training Center** was founded in 1994. The school offers two 900-hour massage therapy training programs approved by the National Certification Board for Therapeutic Massage and Bodywork.

For more information about **Professional Massage Training Center**, call 863-7682 or visit [www.pmtc.edu](http://www.pmtc.edu).
