

SPRINGFIELD, Mo. (June 2009)—Professional Massage Training Center, Inc., one of the country's premier massage therapy schools, recently purchased the building at 235 East Commercial Street to house its expanding operations. The recently-acquired property will provide PMTC with 4,700 square feet of additional space and will accommodate new admissions offices, spa training facilities and new classrooms.

"We are excited about the growth of our programs and the level of services we are able to offer our students," said Juliet Mee, Director, Professional Massage Training Center. "We love being in the heart of Springfield on Commercial Street and are thrilled to renovate the new building. The extra space will enable us to better reach and serve individuals interested in PMTC's professional massage therapy programs and provide our students with more classrooms and facilities for hands-on training and massage therapy experience."

Professional Massage Training Center currently occupies the approximately 10,000 square foot building at 229 East Commercial Street. The new building is located directly east of PMTC's current location and previously housed Davis Appliance Store.
